

THE "STALKER" PROFILE

**A Word-For-Word Online Dating Profile That
Magnetically Attracts The Women You Want**

Hey, Dave here...

So for the last 3 weeks I’ve been “sneakily” testing a new profile on POF. With this new “stalker” profile I’m getting approximately 7 new messages from women a day and in most cases the women are messaging me FIRST.

No kidding. I can’t believe this worked so well.

And you know what’s funny?

When I first started meeting women online, I had the most difficult time writing my profile. Women would never message me (unless they were like 300 lbs. with the face only a mother would love).

It sucked.

Looking back it’s no wonder, I was a knucklehead and completely clueless on how to create a profile that would get a woman reading it intrigued and excited about meeting me. I took it so serious and was far too worried about the outcome.

Anyways – Since then I’ve “cracked the code” to meeting women online and I want to show you what’s working for me.

Hopefully I can save you a little of the trial and error I’ve had to go through so you can enjoy an unlimited supply of high quality women like I now do.

Listen, you’ve heard the same “profile” bullshit a gazillion times from most of those “online dating experts”, yet strangely none of those bozos can actually SHOW you how to do it.

And these guys are supposed to be experts.

Sissies...

Here’s the simple fact of the matter: You need a online dating profile that attracts women to you like a magnet. It’s a *must* if you want to meet attractive women online.

This is the best thing about meeting women online. Instead of having to go out to bars, clubs, bookstores etc and pursue women, all you gotta do here is just put out the right bait (aka a specific type of profile and photos) and women will come to you.

It’s SO easy when you know what you’re doing.

I’ve been reading comments on my blog and from emails guys send me and lots of guys have asked for help with their profiles. You might be having a difficult time writing your own online dating profile too.

Don’t worry, you are not alone. Most men have this same problem too :-)

The good news is, I’m GIVING the “stalker” profile I’ve been talking about to you for **FREE** in this special report - no strings attached.

The reason I’m doing this for you is two-fold.

Reason One: Just to be cool.

I mean hey, why not? I could use the good karma.

Reason Two: Blatant Self Promotion.

This way, you can get women messaging you ...you can become successful ...and that will hopefully make you want to buy my stuff forever because it actually *worked for you*.

(No point in trying to hide my motivation here ;-)

OK - so that's that. Onward...

Before I do, I want to explain why it works so well, because when I show this profile to you, you’re going to be like, “Man, this is so simple, you’ve got to be kidding me”, but it really does work.

The reason this profile works so well is because you’re using Insider Internet Dating to communicate to women that you are fun, playful, have a sense of humor, are confident, ambitious and are a CHALLENGE.

You’re communicating on the same wavelength as her. When you do this you become a guy she actively looks for and must meet instead of one of those pesky guys trying to “pick her up”. (this is HUGE)

Anyways - I’m stoked to share this **DONE-FOR-YOU** profile with you.

Seriously. You can literally just STEAL it.

I don't mind.

I'm happy to do this... and if you were in my position, I'm sure you would do the same.

Just plug in your details (so it's customized to you) and be off to the races within 10 minutes.

It's gotten a lot of messages for me and my high paying private clients and I hope it does the same for you :-)

You'll love it, just like Chris did (check out this message he sent me):

Subject: Thank You!

Hi Dave,
Just checking in. Wanted to let you know that I am getting great responses from the "Stalker" profile you put out!

I did modify it just a touch and toned it down (just a smidge). I'm a bit older and it seemed to be scaring off the Cougars and MILFs - or AKA my target market...

They are making the initial contact. I'm getting them every day. I love it. Today, I received this:

Hi

I roared laughing at your profile very witty :)

Smiles
Fiona

I will definitively be ordering IID very shortly!

Profile:

I'm not like anyone you've ever met before. Unless you've already met me... stalker. :-)

Sure, I could bore you with delusions of how wonderful I am, but lets face it, I'm sure you've already read this about two hundred times in all the other profiles... I believe that actions speak louder than words, so why bother?

A lot of people have told me that I'm "special" or "gifted". I think they're jealous that I can count to 10, or 20 with my shoes off, and even to 22 in the shower. (don't ask)

Anywhoo... I surround myself with optimistic people who are going somewhere in life, and no, I don't mean KFC. I'm very open-minded with an international outlook, a risk- taker who is always up for a new adventure. I love **dogs, beaches, meaningful conversations, and self improvement.**

I keep very busy and love my life. I don't have the time or inclination to date everyone under the sun anymore, and I have no problem meeting people. I'm extremely selective, and am just fine if I don't meet anyone on here... BUT, if you're someone really really really special, I'd love to have you along for the ride and make our already great lives that much better.

There's something very special about you. You are curious about the world around you. You can take a joke and are not easily offended. You believe that sarcasm is a spice of life. You can spell (without using spell check), and are generally happy. You want to see the world and travel, love to kiss, you cuddle like a cat on the sofa, and shag like a tiger in bed. You are thin, athletic, (curvy in the right places is a plus), your eyes are bright and convey the depth of your spirit. You are beautiful inside and out, and you think you can actually keep up with me.

The rest is negotiable. (well, you can't be a blood relative)

First Date:

Well... there would be a ton of laughter... however... I wouldn't call it a first date just quite yet... and for that reason alone I might show up wearing running shoes... you know, JUST in case. :-)

Hey - Didja Like This Special Report?

I hope this helps with your online dating (it WILL if you apply it). Imagine how well this could work as YOUR profile, getting you messages and phone numbers.

As simple as this sounds, go ahead and use it and meet some women.

Nobody online has a profile like this. It's like you're showing up to a knife fight with a machine gun or something.

Total unfair advantage.

In fact, I wouldn't be surprised if you had a bunch of women messaging you after using this Done-For-You profile tonight.

Wait. Whats that I hear?

“You've got mail!”

Thats right. Use this and women will message you.

How can I say such an ballsy thing?

Simple.

I know this works. I've used it on my own profile and I've used it for my private clients profiles.

Try it, you'll be glad you did.

It all goes back to this:

**When It Comes To Online Dating,
Knowing A Little Or “Just Enough”
Could Be DANGEROUS**

You have to go full throttle or you'll only get to first base - or strike out altogether.

What good is getting a woman to respond to your e-mail if you can't get her phone number?

What good is getting her phone number if you don't know how to carry on a conversation and get her to agree to go out on a date with you?

What good is getting a date if you don't know how to get to hold her hand, kiss her (or get her to desire you)?

You get my drift.

Having a killer profile -- but no killer strategies when sending out e-mails or making that first phone call or going on the first date -- can lead to incongruence, which equals dating failure.

You gotta know what to do every step of the way.

If you enjoyed this little secret... then you are going to LOVE my new program, Insider Internet Dating! In it I share literally DOZENS of tips and techniques just like this for attracting the woman or (women) of your dreams using online dating sites.
